

Plan Changes

Addition of psychotherapists to list of practitioners

Effective October 1, 2014, the plan was amended to include psychotherapists in addition to psychologists. The annual maximum will remain the same and will include the cost of psychologists and/or psychotherapists.

Diabetic Supplies

For those dioceses/organizations that have a drug card, effective January 1, 2015, the drug card deductible will no longer apply to diabetic supplies.

Dental Implants

Dental implants are not covered under our plan. However, effective January 1, 2015, an alternate benefits clause has been added to the plan allowing Manulife to use discretion to apply the bridge/crown provisions of the plan to dental implants. The annual dental maximum will remain the same.
